VOLUME 9 – AUGUST 2025

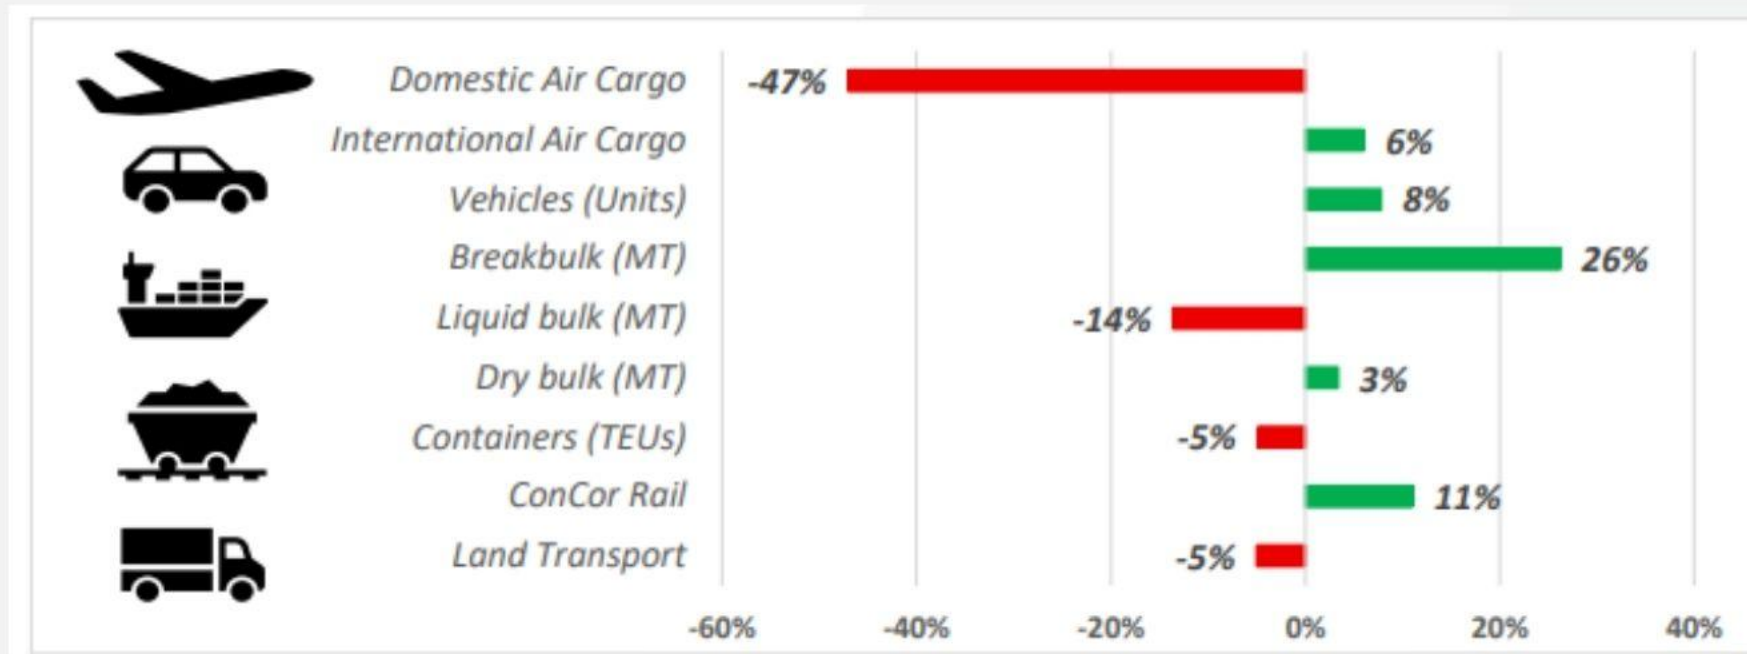

Cape Town Container Terminal Surpasses Throughput Targets

- CTCT handled **19,931 TEUs** in the week ending 20 July - **62% above target**.
- Marks the **best weekly performance since March 2019**.
- Quarterly throughput **up by 32% for Q1** of the 2025/26 financial year.
- Strong reefer cargo performance: **62% above target** in Feb–Mar 2024.
- Operational improvements include new equipment, more haulers, and extra shift teams.
- Continued weather-related disruptions remain a challenge.
- Productivity still below global benchmarks, but upward momentum is encouraging.

YEAR-ON-YEAR CARGO VOLUME

June 24 vs. June 25 (% growth)

Not only do we facilitate staff training for our own team, but we also support our clients in developing their employees - in this case, the second generation of the business.

Congratulations on successfully completing our logistics programme — well done!

From 22 to 24 July, I had the privilege of attending the KZN Industrial Technology Exhibition in Durban - an event that brought industry leaders, innovators, and solution providers together under one roof.

It was a fantastic opportunity to meet potential new importers and exporters, explore exciting business prospects, and reconnect with some of our valued existing customers.

The energy, innovation, and collaboration on display were truly inspiring, and I look forward to building on the connections made during this vibrant event.

-Shaun Subramoney

WAREHOUSING AT ITS BEST
